BACKGROUND

The WIOA closeout period refers to the 30-day period after a contract has reached its term end date or its funding has been fully utilized. During this period, the subrecipient submits a closeout package to the WIB, and the WIB confirms that all applicable administrative actions and required work of the contract have been completed by the subrecipient.

The closeout period is a critical piece in the cycle of a contract. It is used by the subrecipient to liquidate remaining obligations and to prepare and transmit final fiscal and program documents.

In accordance with the requirements of Uniform Guidance Section 200.343, this directive addresses the proper steps a subrecipient must take in order to close out a contract. Additionally, it provides the instructions and report forms necessary to complete a closeout package. These forms are included as attachments to this directive.

POLICY AND PROCEDURES

Definitions

Accrued Expenditures – An obligation for a good or service that has been received within the report period, but has NOT been paid. Accrued expenditures must be paid prior to the submittal of the closeout package. Accrued expenditures must not be shown on a closeout report.

Contract – A legal instrument by which a subrecipient purchases property or services needed to carry out the project or program under a federal award. This term does not include a legal instrument, even if the non-federal entity considers it a contract, when the substance of the transaction meets the definition of a federal award or subaward (Uniform Guidance Section 200.22).

Obligation – A formal contractual commitment for the amount of orders placed, contracts and subgrants awarded, goods and services received, and similar transactions during a funding period that will require payment by the subrecipient during the current or future period (Uniform Guidance Section 200.71).

Stand-In Costs – Costs for the program paid for with non-federal costs resulting from an audit. Stand-in costs must come from the same year as the costs that they are proposed to replace and they must not cause a violation of the administrative or other cost limitation. These costs must be included in the appropriate expenditure reports if they will be used at a later time.

Subaward – An award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract (Uniform Guidance Section 200.92).

Subrecipient – A non-federal entity that receives a subaward from a pass-through entity to carry out part of a federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other federal awards directly from the federal awarding agency (Uniform Guidance Section 200.93).

Unliquidated Obligations – A formal contractual commitment for a good or service that has NOT been received and has NOT been paid for within the report period. When filing a closeout report there can never be any unliquidated obligations shown on the expenditure report.

Closeout Requirements

Subrecipients must closeout contracts within 30 calendar days of the term end date.

Local/special grants must be closed out 15 days after the grant term . In these instances, the subrecipient would close out the specific local/special grant by submitting the WIB's Contract-to-Date Financial Report,Financial Back-Up, along with the Cash Request forms to fiscalwib.org and wait to close out the remaining contract at the the term end date.

Example – A contract contains both formula funds and local or special grant funds. The term end dates for these funds are June 30, 2019, and March 31, 2019, respectively.

In this example, the formula funds must be closed out by July 30, 2019. The local or special grant funds must be closed out by April 15, 2019.

Subrecipients must issue closeout instructions and deadlines to each of their subrecipients. These instructions must allow sufficient time for the subrecipient to receive all required documentation and conduct an orderly closeout of the contract.

All allowable contract costs must be accrued and charged to the contract by the contract ending date. Costs incurred for participant services after the contract term has expired will be disallowed. The closeout of a contract does not affect the subrecipient's obligation to return any funds as a result of later refunds, corrections, or other transactions. As outline in Title 2 CFR sections 200.343 and 200.345, all such funds should be returned to the WIB within 10 days by mail.

It is not necessary to submit revised closeout documents with each instance. It is necessary, however, for a letter to accompany all returns by mail that include the contract number, program or fiscal year, the source of nature of the refund, and any other pertinent information to assist in properly accounting the refund.

Closeout Package

A closeout package contains all of the forms required for a subrecipient to close out a contract and/or local/special grant. These forms are included as attachments to this directive.

Cash Request

Subrecipients should closely monitor their cash request to ensure the total funds requested do not exceed total cash expenditures. **Subrecipients must include their final cash request, WIOA Contract to Date Financial Report, and WIOA Financial Back-Up Forms in the closeout package.** Failure to do so may result in possible disallowed costs.

Disposition/and or Inventory of Supplies and Equipment

All the rights, title, and interest of the subrecipient in property or supplies purchased under the contract shall be assigned to the WIB in the manner, at the time and to the extent directed by the WIB.

Subrecipients are required to submit in the closeout package a Property Closeout Inventory Certification form.

Disposition of Disallowed Costs, Refunds, and Other Credit Adjustments

When the resolution process (such as the Initial and Final Determination process) results in a determination by the WIB that identifies the disallowance of expenditures for WIOA funds not expended in accordance with WIOA, a debt is established. The WIB is expected to collect that debt. Disallowed costs from WIOA funds must be repaid from non-federal cash as a lump sum or as installments within 30 calendar days after demand (Uniform Guidance Section 200.345).

Disallowed costs, as well as refunds or credits that are received after the funding period ends, must be returned to the WIB. The package must contain a check for the returned funds along with information as to the WIOA funding stream (adult, dislocated worker, or youth), grant code, year of allocation and be sent to the following address:

Records Retention

Subrecipients must retain all records pertinent to the contract for a period of three years from the date of their last expenditure report submitted to the WIB. If any litigation, claim, or audit is started before the expiration of the three-year period, ALL records must be retained until all findings have been resolved and final action taken (Uniform Guidance Section 200.333).

ACTION

Please bring this directive to the attention of all WIB Subrecipients and WIB Staff.
