BACKGROUND

The Workforce Innovation and Opportunity Act permits the use of work experience as a training activity for eligible youth participants. This policy establishes the criteria and the process by which work experience will be applied within WIOA regulations and local policy.

A work experience is a planned, structured learning experience that takes place in a guided learning environment in the workplace for a limited period of time. The work experience can be paid or unpaid and must include an academic and occupational education component. The WIOA places a priority on providing youth with occupational learning priorities and requires local areas to expend at least 20 percent of WIOA youth formula allocation on work experience, which may include wages and staffing cost for the development and management of work experience.

A work experience may be arranged with private for profit, non-profit, or public sectors. The work experience or internship may be paid or unpaid, as appropriate and consistent with other laws, such as the Fair Labor Standard Act.

The required academic and occupational education must include:

- Workforce preparation activities, basis academic skills, and hands-on occupational skills training
- May occur concurrently or sequentially with the work experience;
- Must be taught within the same time frame and connected to training a specific occupation, occupational cluster, or career pathway.

Work Experience Worksite Agreement Requirements

A work experience activity is intended to assist eligible individuals to establish a work history, demonstrate work success, and to develop the skills that lead to entry into unsubsidized employment and fosters job retention. Work experience provides an opportunity to enter into the workforce to acquire, through close supervision, an appreciation of workplace norms that may include self-discipline, interpersonal skills, attendance and accountability, understanding compensation, and learning to appreciate and meet employers' reasonable expectations. This applies particularly to individuals with no employment, chronically unemployed or have an inconsistent work history. If a participant was previously employed by the worksite employer, the participant may only return to the worksite for training in a different job classification and receive training in an increasingly more complex position.

Work Permits

Subrecipient must ensure youth participants planning to enroll in a work experience have the appropriate permits to employ and work. California Law requires that all minors less than 18 years of age, employed in the State of California must have a permit to work. Schools and/or school district offices issue Permits to Employ and Work. Permits are always required for minors, even when school is not in session. Youth between the ages of 18 to 21, if employed in an occupation using potentially hazardous tools, equipment or materials, must be provided with instruction of the proper use of appropriate safety equipment. This would include, but is not limited to, hard hats, safety glasses, steel-toed shoes and protective clothing or gloves.

Work Experience Duration

A work experience will be of limited duration and must be at least 160 hours and may not exceed 320. WIB approval will be required if hours are less than 160 and greater than 320. hours. The hours assigned must be based on the complexity of the occupation and skill sets the participant is expected to learn for the duration of the work experience. The minimum pay rate is the California minimum wage and the maximum pay rate may not exceed \$2 above minimum wage. Any deviation from the hours and pay rate described in this policy must be approved by WIB staff prior to establishing a work experience agreement with the employer.

The following factors should be considered when determining the duration of the work experience.

- Participant skill level and knowledge
- Type of work to be performed

- Training objectives

Overtime and holiday work by the participant is prohibited under the worksite agreement. However, if the worksite employer does not adhere to the worksite agreement prohibition, and instructs a participant(s) to work overtime or on a holiday, it is the Subrecipient's responsibility to compensate the participant(s). - (D) **ESTIMATED TRAINING TIME:** Indicate the number of hours, which will be devoted to training for the specific skill.
- (E) **MEASUREMENT METHOD:** Identify the method that will be used for determining whether the participant has acquired each skill. Typical methods of measurement include oral or written question and answer, observation, and review/inspection of a product.
- (F) **FOLLOW-UP/SITE VISIT – DATE AND RATING:** Record the date on which the follow-up/site visit is made and a rating of the skill level that has been achieved. Use the rating scale listed on the front of this form. Evaluation of the trainee's progress in acquiring the identified skills must occur consistently over the course of training and will be based upon the supervisor's evaluation of the trainee's progress.
- (G) **ACTUAL TRAINING HOURS:** Total the numbers of training hours, actually completed (use time sheets) and compare to the projected hours of training. This will give you a comparison of skill level attainment in hours. The participant must complete at least 90% of the training over the term of the agreement period in order to be considered as "completed training".
- (H) **SUCCESSFUL COMPLETION:** Total the participant's score and compare the possible score (ratings of 4 x # of skills possible). This will give you the percentage of completion attained. In order for the participant to be a successful completion, it is necessary to achieve at least 80% of the total possible score for the sum of the all skills.
